Product Number: GlyB031

Product Story

An excellent bleaching agent that is formulated to lighten age spots, freckles and pigments in the skin. Avoid sun exposure.

Active Ingredients

Hydroquinone 2%, Kojic Acid 2%, Glycol Acid 10% (Alpha Hydroxy Acid).

Other Ingredients

Deionized Water, Propylene Glycol, Lactic Acid, Hydroxyethylcellulose, Glycerin, Azelaic, Ammonium Hydroxide, Capryly Glycol, Sorbic Acid, Ethylhexylglycerin, Chloroxyleneol, Ascorbic Acid, Sodium Metabisulfite.

The Dos

Do a patch test for allergies 2-3 days before regular application. Apply a thin layer all over the face (about a dime size) after cleansing. Use only at night. Wait 5 minutes to allow product to fully absorb into skin. Then moisturizer. This product may discolor over a period of time. If you have Dark Skin Tone, Use the Glycolic with Bleach 2 nights a week for the 1st week. 3 nights a week the 2nd week. 4 nights the 3rd week ect... to gradually build up to using it every night.

The Don'ts

DO NOT rub or scrub off the dead skin cells if you start to flake or peel. Apply our **Sulfur Mask** in the A.M., allow to dry 10 minutes and shower off with fingertips only. Avoid sun exposure. Recommended to use bleaching gel at night and sunscreen at least an SPF 30 during the day.

Suggested Products

Try our **Moisturizing Sunscreen SPF 30** for day. The **Conditioning Sealant Cream** or the **Collagen Cream** at night.
